

PROTECT THE PLANET AND YOUR SKIN

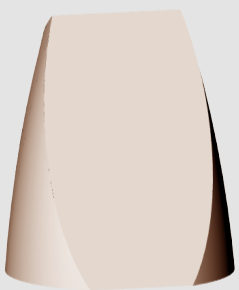

- **NU** is created from the desire to take sustainability as an essential asset when it comes to make containers for cosmetics.

Our solution is to introduce a reusable container made of recycled plastic and the lip balm is protected with beeswax.

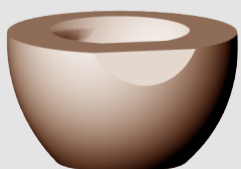

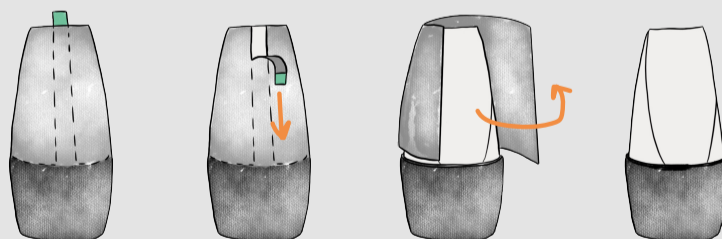

Increase your life products and the life of the planet!

MEET NU:

- Reusable container
- Reload the product as many times as you want

- The shape is adapted to be applied easily on the lips and to be subjected to the hand

**SUSTAINABLE
GENDER FREE
ERGONOMIC**
