www.galferbike.com

At eWheel, we started as a spare parts company for electric scooters and have grown into a group of brands focused on urban mobility. We have welcomed eRider 360 to the family, a brand dedicated to urban mobility accessories, as well as Viketory, our own e-bike brand. Within the Viketory range, you'll find everything from MTB models and fat bikes to urban e-bikes.

GOBIK[®]

Founded in 2010, Gobik was born from a deep passion for cycling and an uncompromising pursuit of performance. Our close collaboration with leading WorldTour teams, including INEOS Grenadiers, Movistar Team and FDJ-SUEZ, brings the demands of elite racing into every collection.

Driven by innovation, functionality and refined design, we create apparel that enhances every ride, elevating the cycling experience through meticulous attention to detail and a commitment to excellence.

MAHLE

SMARTBIKE
SYSTEMS

MAHLE SmartBike Systems, part of the German MAHLE Group, develops advanced drive systems for electric bicycles. With over 150 specialists and additional teams across Spain, Germany, and Asia, it centralizes R&D, Marketing, Operations, and Sales in Palencia. Its ultra-light, integrated systems—combining motor, batteries, and smart components—deliver a fully connected, personalized riding experience, standing out for their balance of efficiency, integration, and natural feeling in electric mobility.

jaume@niche-mo.com

www.niche-mobility.com

Niche Mobility is a Spanish company developing a fully automatic digital drive system for e-bikes. The Niche motor eliminates all external mechanical transmission components — no gears, no derailleurs, no cables — replacing them with a digital system that automatically adapts to slope, cadence and speed. With integrated regenerative braking, Electronic Combined Braking System (e-CBS) and Hill Smart Assist, enhancing efficiency, safety, and the overall riding experience.
