Job offer 2019/03	rrhh@glycardial.com	93 4020259

About us

GlyCardial Diagnostics is a spin-off company of the IR-Hospital de la Santa Creu i Sant Pau and the Spanish National Research Council (CSIC) focused on the development of a novel in vitro diagnostic device (IVD) for myocardial ischemia. The technology is based on the detection of Apo J-Glyc in blood as a biomarker for the early diagnosis of cardiac ischemia and the prediction of patient's evolution after an ischemic event.

The company was incorporated in September 2017, closed its first funding round of 2.4M€ in October 2017 and has recently received 1.9M€ from the SME Instrument H2020 funding program.

We are a small company willing to incorporate enthusiastic professionals that aim to be part of a disruptive project and to develop together with the company.
