EVENT MAP

PROGRAMME

08:30 h | *Registration and welcome coffee*

ÀGORA SPACE

09:30 – 9:45 h | Institutional welcome

- Addressed by **Joan Romero**, Executive Director at ACCIÓ.

09:45 – 10:15 h | Investment Study in the Health Sector 2025: key insights

- Introduced by **Eva Garcia Ramos**, President of Catalonia.health and CEO of WiVi Vision, and **Víctor Carles Ledesma**, Life Sciences Director at EY.

10:15 – 10:45 h | Round Table – New Investment instruments: Public and private collaboration

As health innovation demands ever greater capital and coordination, the boundaries between public mission and private enterprise are being redrawn. This roundtable explores the emerging architecture of public-private collaboration in Europe's health venture ecosystem – from novel financing instruments to the transformation potential of the EU Biotech Act in this regard.

Moderator:

- **Arturo Urrios**, partner at Ysios

Speakers:

- **Jordi Ferrer**, partner at Ship2B
- **Antonio Herce**, Investment director, Life Sciences team at Inveready
- **Guillem Masferrer**, partner at Asabys Partners

10:45 - 11:05 h | Presentation of *Catalunya Lidera Transferència en Salut Fund*

Presentation of the new co-investment instrument managed by the Institut Català de Finances (ICF), which will promote innovative projects in the health and life sciences sectors emerging from Catalan universities and research centres.

- Presented by **Vanessa Servera**, CEO of the Institut Català de Finances.

11:05 - 11:35 h | From Conflict to Consequence: Strategic Implications for Life Sciences in a Fragmented World

- Addressed by **Sol Magaz**, partner at Healthcare & Life Sciences at EY-Parthenon

11:35 - 12:00 h | Coffee break and networking (Port Vell Space)

12:00 - 12:30 h | From Discovery to Impact: presentation of six innovative projects

Our academic and clinical research organizations will present 6 innovative projects, ready to partner and take off.

- Session moderated by **Roser Alba**, Project Coordinator at Catalonia.health.

The selected projects are: 'ST3DT: Redefining Vascular Stents with Advanced Polymer Technology' (EURECAT), 'NANO-DUAL: Dual-Action Smart Therapy for Glaucoma' (UB), 'BIOGRAN: A Biomimetic Platform for Long-Acting Protein Therapeutics' (UAB), 'LeHealthyPlay: Gamified Therapy for Pediatric Hemiparesis' (HSJD), 'iPSC-Derived Macrophage Platform for Next-Generation Immunotherapies' (BANC DE SANG I TEIXITS), 'EB1 Advances ADC Therapy' (VHIR).

12:30 - 13:30 h | Health Investment Programme with ACCIÓ. Startup pitching of 10 projects

The participating companies will present their projects to a panel of experts and investment funds, with the aim of fostering new projects and strategic alliances.

- Session moderated by **Rocío Flor**, Team Leader for Financial Advice to Startups at ACCIÓ.

With the participation of the previously selected companies: With the participation of the previously selected companies: Allpriv, Ephion Health, Flavii Therapeutics, Foresee, Nanobots Therapeutics, Oniria Therapeutics, OrganAID, The Smart Lollipop, QMENTA, Qrem.

13:30 - 13:40 h | Institutional closing

Addressed by **Marta Villanueva**, Councillor for Health, People with Disabilities and the Strategy against Loneliness, Barcelona City Council.

13:30 - 14:30 h | Networking lunch at Port Vell Space

14:30 - 15:00 h | Candidate registration to the Job Marketplace

15:00 - 18:00 h | Job Marketplace - BARCELONA ACTIVA

PORT VELL SPACE. EXHIBITION ROOM

09:00 h | Opening

11:35 h | Networking Coffee

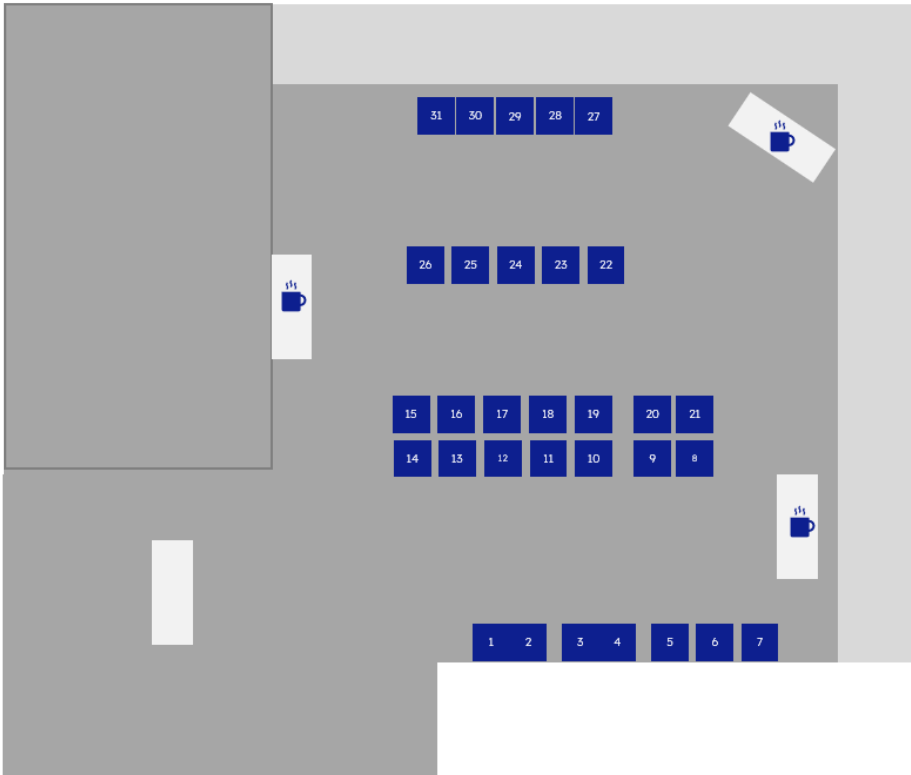

13:30 h | Lunch and networking at the Exhibition Room. A standing lunch will be offered, during which attendees can continue building connections while using the exhibition area.

18:00 h | Closing

AQUA SPACE. B2B PARTNERING

11:00 - 18:00 | B2B Meeting Space with pre-scheduled agenda via Mojo APP.

SPONSORS AND PARTNERS

B. BRAUN

Exhibitor 1-2

For over 185 years, B. Braun has been dedicated to protecting and improving people's health worldwide through technological innovation. Founded in 1839 in Germany, B. Braun has grown into one of the leading global healthcare technology companies, continuously driving progress in clinical practice and making a meaningful difference in patients' lives through smart solutions. Our strength lies in our people and our capacity for innovation. Today, we have a team of more than 66,800 professionals across 64 countries, delivering excellence through a comprehensive portfolio of 5,000 products with over 120,000 references. Our offerings range from intravenous solutions, infusion pumps, and critical care products to surgical instruments, prosthetics, extracorporeal blood treatment equipment, and wound care products. At B. Braun, we are committed to advancing healthcare and improving lives every day.

QMENTA

Exhibitor 14

QMENTA is a cloud-based medical imaging platform that drives clinical research within the digital health ecosystem. Designed for multicentre studies, it enables the centralised management of data and metadata, integrating tools for data ingestion, quality control and workflow standardisation. Furthermore, it facilitates advanced analyses, including AI-based biomarkers, and promotes collaboration between sponsors, CROs and research teams, contributing to more efficient research that is well-prepared for demanding regulatory environments.

LONZA

Exhibitor 8

Lonza

Lonza is one of the world's largest healthcare manufacturing organizations. Working across five continents, our global community of approximately 18,500 colleagues helps pharmaceutical, biotech and nutrition companies to bring their treatments to market. We support our customers with a combination of technological insight, world-class manufacturing, scientific expertise, process excellence and innovation. Our work enables our customers to develop and commercialize their therapeutic discoveries, allowing their patients to benefit from lifesaving and life-enhancing treatments. In Advanced Synthesis, we apply more than 125 years' expertise in classic and complex chemistry to the manufacturing of small molecules, highly potent APIs, antibody-drug conjugates and bioconjugates.

CONSONANCE

Exhibitor 12

Consonance is a one-stop medical device development company dedicated to turning medical ideas from doctors, engineers, and businesses into successful MedTech products. The team of skilled engineers, scientists, and regulatory specialists blends innovation with proven engineering expertise taken from 50+ projects. Aims to enhance quality of life through reliable, cutting-edge medical solutions. Collaborating with startups, SMEs, and global pharmaceutical companies, co-creates impactful devices. Certified under ISO 13485:2016, meets MDR and FDA standards. Partners of the European Innovation Council, collaborators of the EIT Health and a few EU accelerators.

ACCIÓ

ACCIÓ

ACCIÓ is the Catalan Government's agency for business competitiveness. Belonging to the Ministry of Business and Labour, it is the public facing organisation working to contribute to the transformation of Catalan companies. It has a network of 40 offices worldwide, 7 regional offices in Catalonia, and collaborates with public and private institutions.

EY

At EY, our purpose is Building a better working world. The insights and quality services we provide help build trust and confidence in the capital 9uildin and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all our stakeholders. In so doing, we play a critical role in 9uilding a better working world for our people, for our clients and for our communities.

BARCELONA ACTIVA

Barcelona Activa is Barcelona's local economic development agency.

As a local development agency, our mission is to contribute to the improvement of the quality of life of the people by promoting the economic competitiveness of the city and re-balancing the territories, by means of fostering quality employment, boosting entrepreneurship, and supporting a plural, diverse and sustainable business fabric, from an economic, social and environmental perspective.

Our vision is to make Barcelona an international benchmark city for work, entrepreneurship and living, with social and environmental values.

EXHIBITORS

ADCORPUS

Exhibitor 19

Founded in 2024 and based in Barcelona, AdCorpus specializes in developing innovative products and technologies for Active Implantable Medical Devices. Through their consulting and engineering services, they provide to their customers with a fast, reliable, and efficient pathway to market success.

AGC PHARMA CHEMICALS

Exhibitor 27

AGC Pharma Chemicals

AGC Pharma Chemicals is a global CDMO with GMP facilities in Barcelona (Malgrat de Mar) and Japan, specializing in the development and manufacturing of small-molecule APIs and intermediates, including HPAPIs, for pharmaceutical and biotechnology companies. We offer an integrated service covering R&D and scale-up through to commercial manufacturing, with capacities ranging from gram scale to tons. We bring agility and flexibility, a strong top-pharma-quality culture, and act as a reliable partner throughout the entire API lifecycle.

ALLPRIV

Exhibitor 22

Allpriv is a disruptive, award-winning cybersecurity startup developing “Cyber-Brick”, an internationally patented hardware-based cybersecurity technology for connected medical devices. At Connection Day 2026, Allpriv aims to offer the integration of Cyber-Brick at no cost to a first cohort of 15 medical device manufacturers, helping them prepare the new mandatory cybersecurity requirements and accelerate compliance. We are also seeking visionary investors ready to support the

emergence of a new cybersecurity standard for medical devices, starting from the Catalan health innovation ecosystem and expanding internationally.

AMIDA|4

AMIDA4

Exhibitor 30

AMIDA|4 delivers production-ready solutions for the pharmaceutical and biotechnology industries, bridging the gap between innovation and regulated manufacturing. Custom-designed equipment for laboratory and industrial environments ensures efficient, safe, and reliable operations. Advanced automation, control, and monitoring technologies enhance performance across processes, machinery, and facilities, while integrated quality and data systems guarantee traceability and full compliance with GMP and 21 CFR Part 11. The result: scalable, validated processes ready for production.

ARCHIVEL PHARMA

Exhibitor 15

Archivel Farma is a company dedicated to developing immunotherapeutic agents to respond to unmet medical needs. We offer a wide range of services to help biotech and pharmaceutical companies to develop, scale up and manufacture from preclinical to clinical batches for clinical studies. Due to its dimensions and characteristics, the GMP facilities are especially suitable to manufacture small and customised clinical batches. Our specialized team can provide agile, flexible and customized manufacturing services.

ASSOCIACIÓ TECNIO

Exhibitor 10

Associació TECNIO brings together the main knowledge transfer agents from universities and research centres in Catalonia, all of which hold the official TECNIO accreditation. Recognized by the Government of Catalonia, the association fosters innovation by connecting research with industry, helping companies develop new products, processes, and services through cutting-edge technology. TECNIO members play a key role in bridging the gap between science and the market, supporting business competitiveness and regional development.

CMG MEDDEV

Exhibitor 24

CMG MedDev is a dedicated consulting service with more than 30 years of experience with a focus on the field of medical devices, in vitro diagnostics, software and AI. We are focussed on simplifying the regulatory journey by prioritizing product safety and efficiency with a tailor-made solution, ensuring the success of your projects from concept to market and beyond. Our product lifecycle services go from pre-market support, product certification, post-market support, quality and clinical support. Our expert team collaborates closely with you to navigate the intricate landscape of MDR / IVDR, MDSW, FDA, quality system and clinical research.

ECOPOL TECH

Exhibitor 23

Ecopol Tech is a technological based company born in year 2005 with the philosophy to contribute to the society proving solutions for improving the wellness, health, and environment. We have expertise in synthesis of water based and solvent free specialty polymers, polymer applied nanotechnology, and polymeric micro/nanoencapsulations. In the pharmaceutical division the main contribution is dedicated to controlled drug delivery systems (stimuli sensitive micro and nanocapsules). We have a unique patented platform named ECOSTRATAR to get versatile and industrial scalable for multifunctional nanocapsules. The spinout (Polar NanoPharma) has been established in 2024 to develop nanomedicine projects focused on oncology.

HABEMUS

Exhibitor 11

Habemus is a recruitment firm operating both nationally and internationally. For middle managers and executives, we offer cross-sector services, connecting companies from any field with the best leaders. We also specialize in recruiting for any position within the chemical, pharmaceutical, healthcare, and hospitality industries. We stand out for our approachability, agility, and high-quality selection.

IBEC

Exhibitor 29

At IBEC (Institute for Bioengineering of Catalonia), frontier research is combined with specific transfer targets to produce new applied technologies to be used in life and health sciences. We have the versatility to generate excellent research and, at the same time, work with industry to develop new diagnostic or treatment systems. Early diagnosis, new therapies based on regenerative medicine, better quality of life compatible with an ageing population, and technological advances to increase efficiency and make healthcare sustainable: these are some excellent examples of areas where IBEC can contribute with its cutting-edge research to generate new technological advances of key importance to innovation.

INNOVAMED

Exhibitor 17

Innovamed is a contract manufacturer specializing in the production of medical devices through plastic injection moulding, assembly, and blister packaging. With over 15 years of experience, we provide end-to-end solutions for third-party clients, ensuring the highest quality standards and regulatory compliance. Based in Barberà del Vallès, just 30 minutes from Barcelona, we are ISO 13485 certified company that hold an AEMPS licence, and operate an ISO 7 Clean Room, guaranteeing strict quality-controlled manufacturing processes. We are founding members of the BCN Medicare Industrial Hub, reinforcing our commitment to innovation and collaboration in the healthcare industry.

INTEPLAST

Exhibitor 21

Inteplast Medical, a division of Inteplast S.A., specializes in the design and manufacture of high-quality plastic solutions for the medical, pharmaceutical, and veterinary sectors. With over 50 years of experience and facilities in Spain and the Czech Republic, we operate a 1,500 m² ISO Class 8 clean room in Catalonia. Our capabilities include thermoplastic injection moulding, over moulding, bi-material injection, and final product assembly. Production is carried out under a sanitary license validated by AEMPS. We offer integrated, customized solutions, supporting our clients from concept to industrialization while ensuring compliance with the highest technical and regulatory standards.

JORI

Exhibitor 13

JORI&i4CT is a European insurance broker company specialized in insuring human clinical trials worldwide. Our clients are sponsors (or their CRO) which run clinical trials on the five continents. Our main strengths are outstanding service by a dedicated team, fast, secured and easy process; certificates and policies complying with local requirements, thousands of trials already insured since 2013, and competitive premiums. In addition to clinical trials, JORI&i4CT can also provide insurance solutions for any other business risks your company may face, ensuring a comprehensive protection tailored to your needs.

KLINEA

Exhibitor 18

Klinea, a specialized engineering company capable of adapting its designs to the quality standards required by cGMP. Klinea contributes to the welfare of society by designing biopharmaceutical plants, to manufacture better drugs, faster and at the best price. It offers assistance in engineering projects for the pharmaceutical, biotechnological and related sectors by performing design and project management and consulting services.

KYMOS

Exhibitor 3-4

Kymos Group is a leading European CRO offering GMP, GLP, and GCP-compliant analytical services for the life science industry. With headquarters in Spain and international sites in Germany and Italy, we provide end-to-end support across the whole drug development lifecycle. Our comprehensive services include bioanalysis and CMC testing solutions from preclinical stages to commercial release. We partner with global pharma and biotech companies to ensure product quality, regulatory compliance, and accelerated market access.

LEANBIO

Exhibitor 31

Leanbio is a global service provider for the development and manufacturing of biologics. With over a decade of expertise, we have a proven track record in development and manufacturing of therapeutic molecules such as antibodies, Fab fragments, ADCs, enzymes, complex proteins, mRNA and pDNA. Leanbio has already worked with over 100 candidates over these years. Leanbio is expanding its capabilities with a new GMP site in Barcelona with over 4,000 sqm. and three manufacturing areas: one for mammalian expression systems up to 2000L, another for microbial and yeast up to 1000L, and a third area for mRNA up to 50L.

MEDICHEM

Exhibitor 5

We are a vertically integrated pharmaceutical company. We specialize in the development and manufacture of active pharmaceutical ingredients (APIs) and finished dosage forms (FDFs). Our portfolio includes approximately 45 APIs and 20 FDFs, we offer contract development and manufacturing (CDMO) and we are global leaders in chlorhexidine products. With over half a century of industry experience, and as a recently certified B Corp, we guarantee the highest standards of quality, operational excellence, and respect for the environment.

MERCK

Exhibitor 16

Science is at the heart of everything we do. We are dedicated to support and collaborate with the global scientific community in diverse ways. With 350 years of scientific expertise, our Life Science business drives the discoveries, collaboration, and solutions with the goal of accelerating access to better health worldwide. We deliver the industry's most comprehensive portfolio of high-quality products, services, and testing for the biotechnology and biopharmaceutical companies. Visit our website www.sigmaaldrich.com

MITON

Exhibitor 28

At MITON we offer secondary packaging solutions for medical devices, pharmaceutical products and promotional packaging services. More than thirty years of experience support us in delivering the best service, quality, capacity, price, attention and innovation. Since our foundation in 1989, MITON has been a Special Employment Centre with the mission of employing people with disabilities. We are B Corp certified and operate under ISO 9001, ISO 22716 and AEMPS authorisations, ensuring quality, compliance and trust for our clients.

NANOMOL

Exhibitor 9

Nanomol Technologies provides drug delivery solutions and GMP contract particle analysis services to the pharma and biotech industry. Our proprietary and green DELOS nanoformulation technology delivers high value-added medicines with enhanced efficacy, selectivity, and reduced side effects. We unlock the formulation of APIs - from small chemical molecules to biologics, including peptides, proteins, and nucleic acids. We are as well one of the few specialized particle analysis laboratories in the world. We provide value to companies by delivering expert characterization of critical quality attributes such as particle size, morphology and structural properties, of drug substances, raw materials and drug products.

OLOBION

Exhibitor 6

oloBion is an innovative, science-based laboratory offering advanced proteomics, metabolomics, and lipidomics services to private companies and academic institutions. Using cutting-edge instrumentation and our proprietary oloMAP software for the analysis and visualization of OMICS data, we automate OMICS workflows from sample preparation to interpreted reports. Based in the Barcelona Science Park, we serve clients in 30+ countries across biotech, pharma, healthcare, cosmetics, agriculture, and food sectors. Our expert team delivers high-quality, traceable results with deep biological insight, helping R&D teams understand biomolecular complexity and uncover mechanisms of action in products and technologies. We empower research through innovation, integration, and meaningful data interpretation.

PERDIGÓ

Exhibitor 25

Perdigó is a medical device engineering firm developing MedTech products from concept to market. From In Vitro Diagnostics to drug delivery products, including electrostimulation devices and surgical instruments, Perdigó drives innovation in health. Perdigó's multidisciplinary team works in state-of-the-art R&D laboratories under a Quality Management System certified to ISO13485. If you want to innovate in MedTech, get in touch with Perdigó.

UNIVERSITAT DE BARCELONA

Exhibitor 7

A public university, offering quality education and research and engaging with society. We provide the widest course offering of any university in Spain and are national leaders in research, thanks to a standing commitment to quality. This status is reflected in the foremost international rankings and is reflected in the extensive transfer activities that channel our results into society.

VERSA BIOMEDICAL

Exhibitor 26

Versa Biomedical, formerly Specipig, is a preclinical CRO specialized in porcine and human cadaver models. We design and conduct translational in vivo studies with our own SPECIPIG miniature pig to support the development of pharmaceuticals, biomaterials, and medical devices. Our expertise includes efficacy, toxicology, pharmacokinetics, and biocompatibility (ISO 10993), as well as the development of disease models across multiple therapeutic areas. Versa Biomedical is GLP, ISO 9001 and ISO13485 certified, has executed projects submitted to the FDA and follows CE regulations regarding animal research, health and welfare.
