Vision - the University of South Bohemia aspires to be:

- a highly sought-after, friendly university offering motivational study and work environment
- a university able to compete at both the European and global levels
- a university with an unmistakable identity that is of benefit to the city as well as the region
- an academic institution supporting students as well as employees

Mission:

- to be a top centre of education, independent knowledge, and creative activity
- to facilitate scientific, cultural, social, and economic development of society
- to actively fulfil its social responsibility in cultural, economic, social, and environmental areas

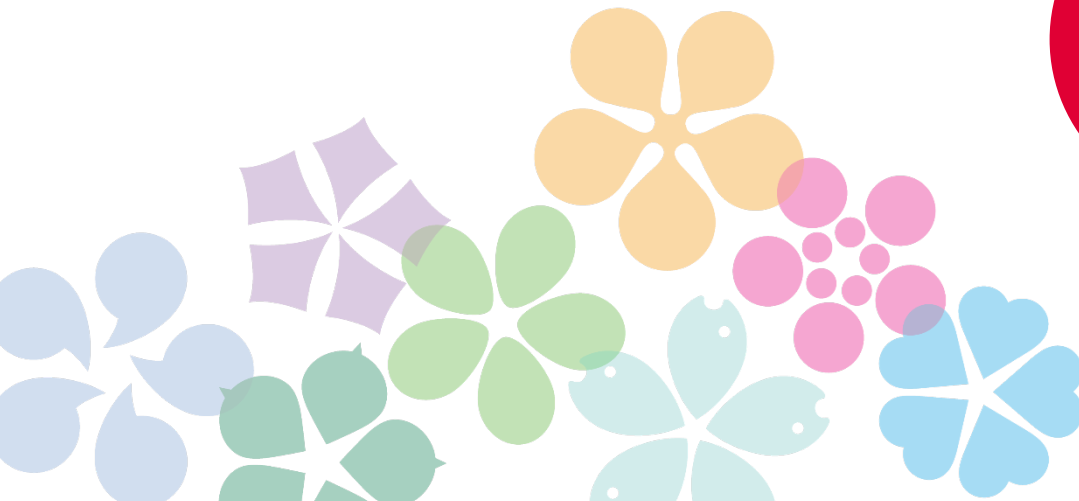

Research

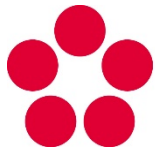

Education

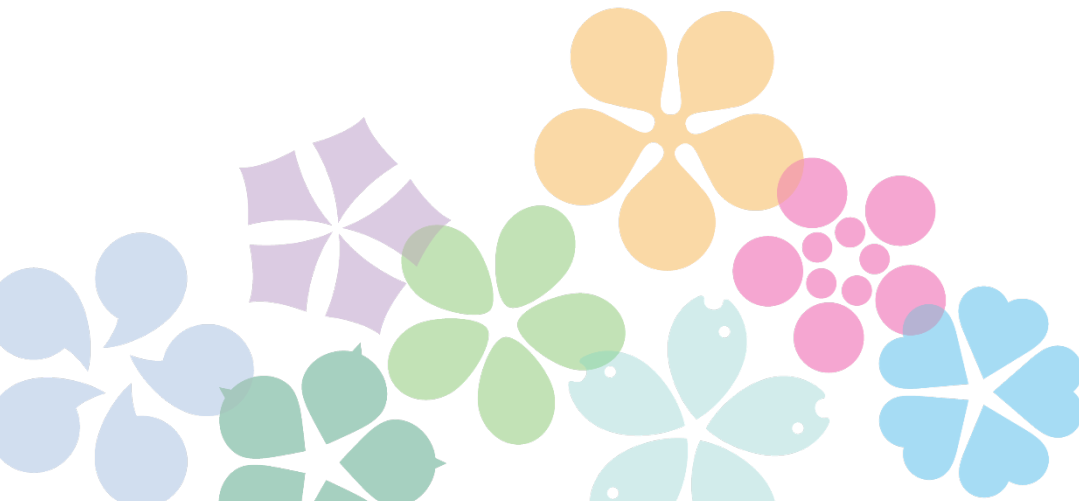

Social
Responsibility

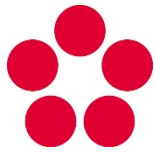

Mission and goals:

- to execute basic and applied research or experimental development independently
- to disseminate the results of these activities publicly through instruction, publications, or knowledge transfer
- to develop educational and related scientific and research, development and innovation, artistic or other creative activities in the natural sciences, agriculture, humanities, social sciences and healthcare fields at an international level
- to conduct ancillary activities (in addition to educational and creative activities) to help fulfil the mission of USB

Lifelong Learning and Courses

- Public courses
- Children's University
- University of the Third Age
- Employee courses
- FEAS
- Summer Schools
- Intensive Czech Language Course for Foreigners

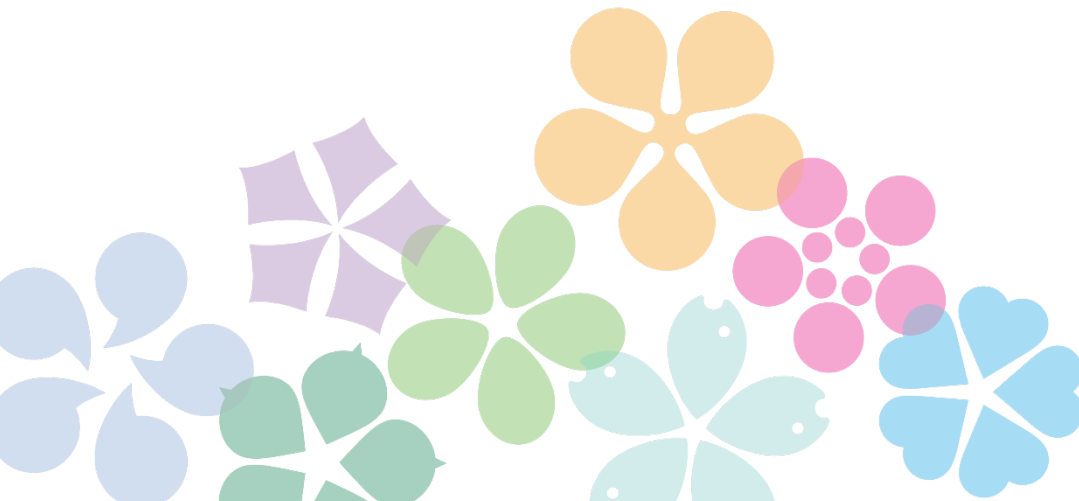

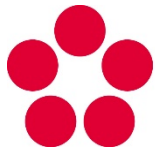

- Almost 2 000 graduates every year
- Majority of USB graduates find employment without difficulties

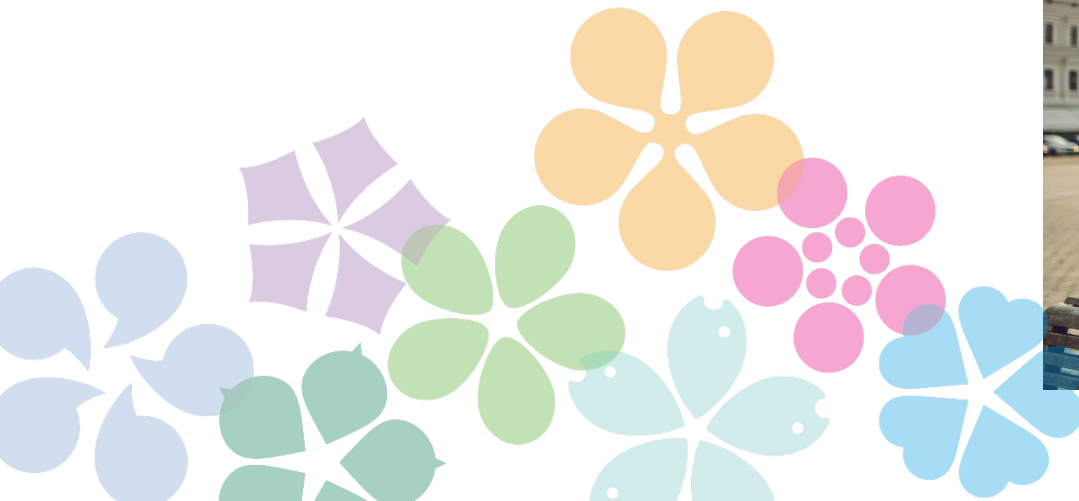

The USB Alumni Club:

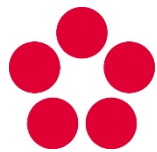

- Connects USB graduates
- Offers information, educational and social events to members
- Organises regular meetings of the Alumni Club at the faculty and university level

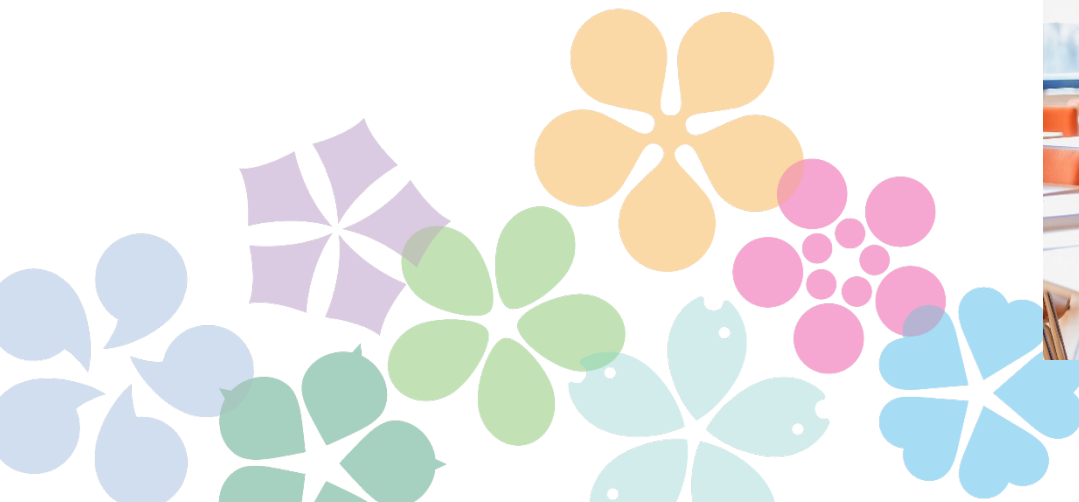

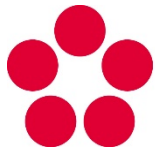

- USB cooperates with 450 universities in more than 70 countries
- The number of international mobilities (arrivals and departures) increases every year
- More than 1,000 international students attend USB in total
- Around 300 international exchange students every academic year

- 30+ fields (programmes) in foreign languages
- Cross-border co-operation with Johannes Kepler University in Linz, our partner university – Biological Chemistry programme
- 11 double/joint degree programmes operated together with universities in France, Spain, Italy, Austria etc.

30+ study programmes in foreign languages

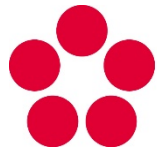

- Bachelor:

Biological Chemistry; Double degree: Applied Foreign Languages for International Business; Sprach- und Textwissensschaften / Philology: German Language and Literature

- Master

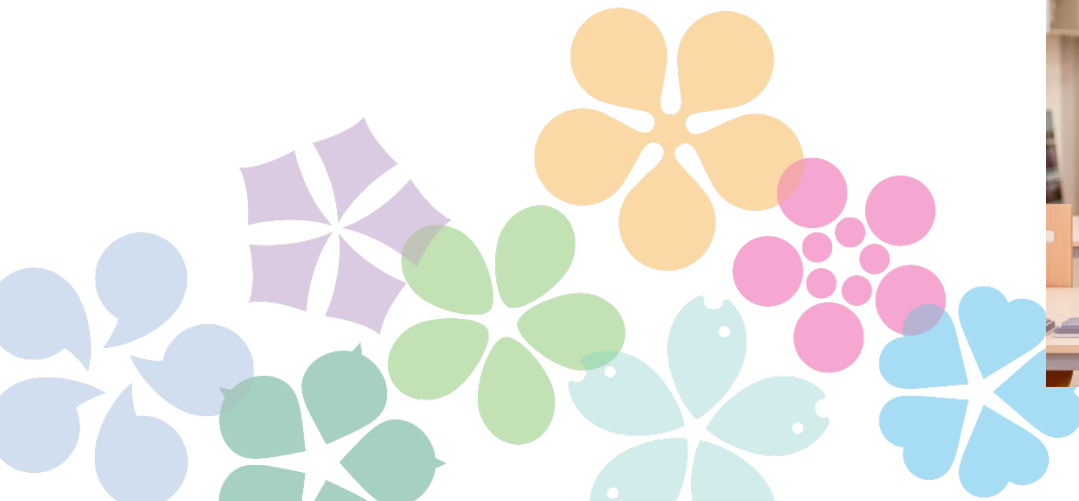

Ecology; Multifunctional Agriculture; Fishery and Protection of Waters; Double and joint degree: Biological Chemistry; Artificial Intelligence and Data Science; Linguistics, Sociolinguistics; Linguistics (Text and Discourse); Linguistics, Terminology; Teaching Spanish as a Foreign Language; Regional and European Project Management; European Master in Migration and Intercultural Relations

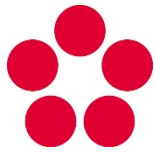

- Doctoral

Economics and Management; Philosophy; Spirituality and Ethics in Social Work; Theology; Archaeology; Theory and History of Modern Czech Literature; Educational Psychology; Applied Physics; Biochemistry; Biophysics; Botany; Ecosystem Biology and Ecology; Entomology; Integrative Biology; Limnology; Parasitology; Zoology; Fishery; Protection of Aquatic Ecosystems

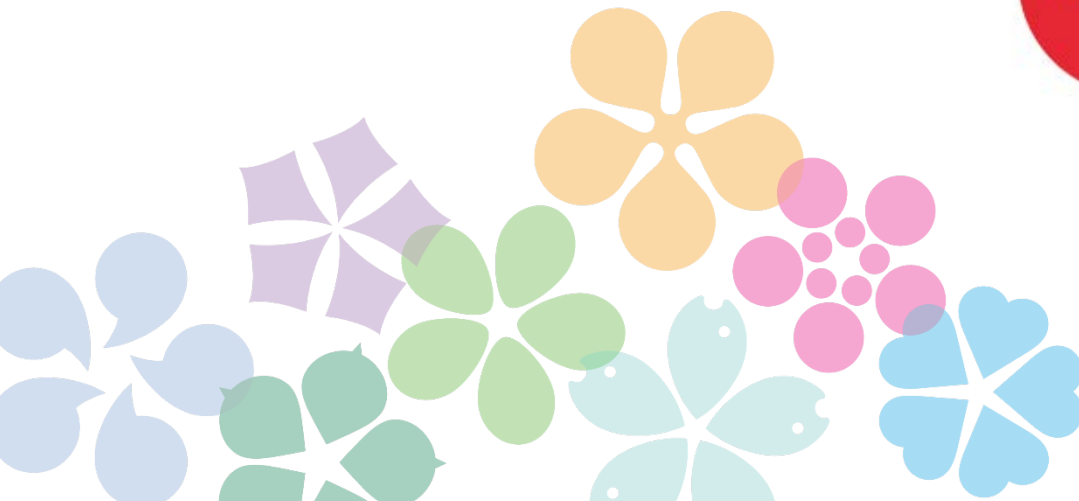

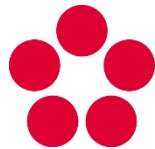

Students can come to USB through a variety of exchange programmes such as:

- Bilateral agreements
- Erasmus+
- CEEPUS
- Visegrad fund
- AKTION

Fields and courses

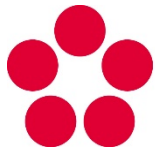

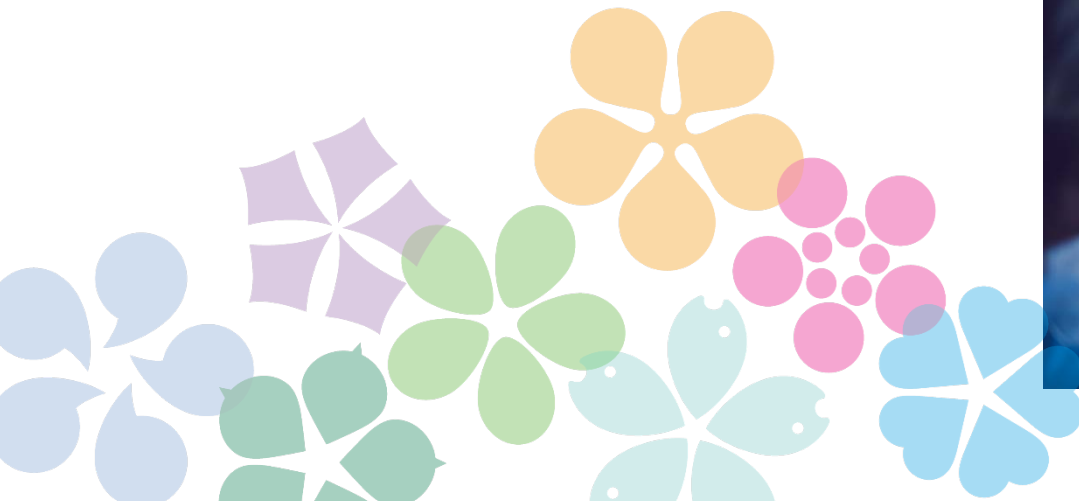

- **THE Young University Rankings 2023**
(Universities younger than 50 years)
 - USB ranks in the 301—350th place range globally
 - 1st in the Czech Republic
- **THE World University Rankings 2024**
- **QS World University Rankings 2024**
 - USB ranks in the 1001–1200 range globally
- **THE World University Rankings by subject 2024**
 - *Life sciences - USB ranks in the 401 – 500 range*
 - *Physical sciences - USB ranks in the 501 – 600 range*
 - *Education - USB ranks in the 601+ range*
 - *Arts and humanities - USB ranks in the 601+ range*
 - *Social sciences - USB ranks in the 801+ range*
 - *Clinical and health - USB ranks in the 801 – 1000 range*
- **Evaluation from the R&D&I**
 - the highest possible rating - excellent
 - USB is the best rated “post-revolution” HEI in CZ
- **USB received the HR AWARD in 2019**

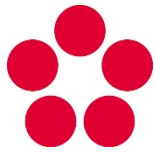

HR EXCELLENCE IN RESEARCH

- USB belongs to the research-oriented universities
- It is a respected centre of science and research in the Czech Republic as well as on the European and global scale
- USB cooperates closely with the Czech Academy of Sciences
- USB participates in the operation of a BC CAS field station in Papua New Guinea and operates its own field station in Spitsbergen

Czech Arctic Research Station of Jsef Svoboda

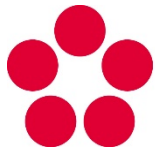

- in the Svalbard archipelago
- focused on the research in polar ecosystems
- established and administrated by the USB Faculty of Science

South Bohemian Research Centre of Aquaculture and Biodiversity of Hydrocenoses (CENAKVA)

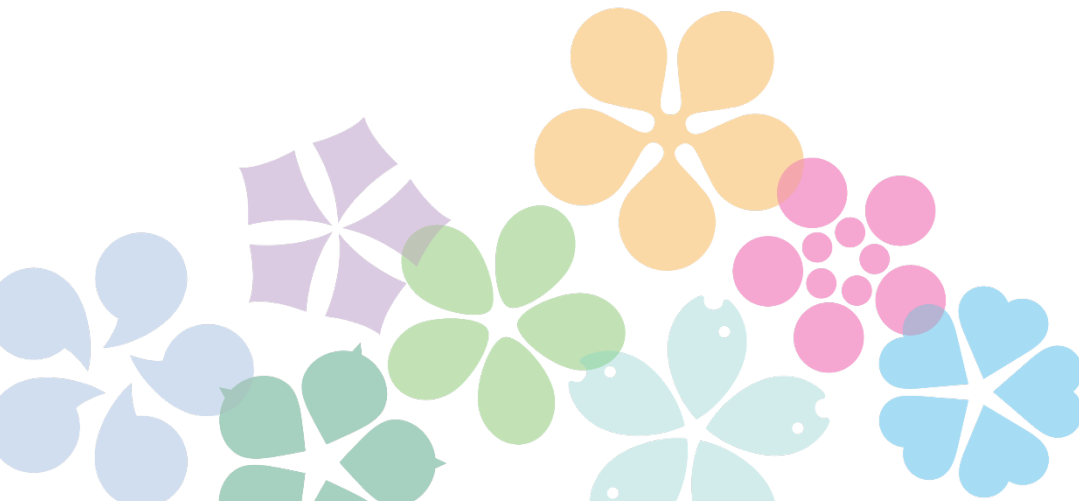

- a unique centre of knowledge, science and education in the field of fisheries and water Protection in Vodňany
- established and administrated by the USB Faculty of Fisheries and Protection of Waters

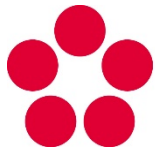

Research and Educational Microbrewery

- founded in 2016 by the USB Faculty of Agriculture and Technology
- works in the field of research and education in beer industry and production
- academic beer ČTYRÁK, Museum of Beer Brewing

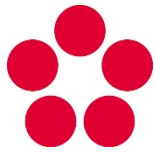

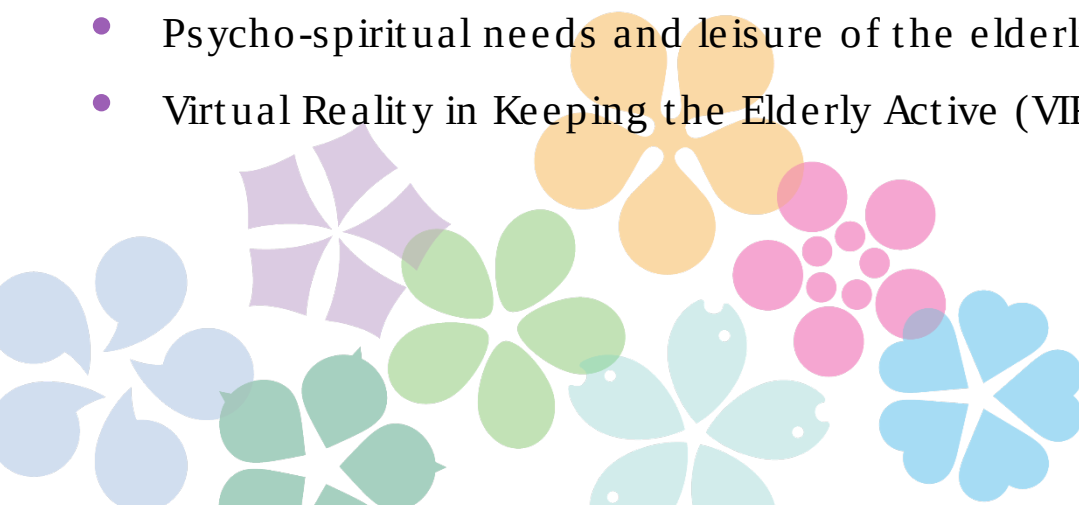

Examples of research activities:

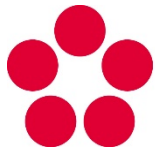

- Applied research in fishery – Omega3carp, Sturgeon friendly caviar
- Circular and sustainable aquaculture, the impact of climate change on aquaculture
- Research on biological invasions in aquatic environments (e.g. crayfish biology)
- Occurrence of drugs and their metabolites in the aquatic environment
- Research on ticks and tick-transmitted diseases
- Research of cyanobacteria and algae and their taxonomy, evolution and ecology
- Research of functional, nanostructured surfaces prepared by low-temperature plasma
- Research on small African mammals

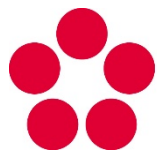

- Cooperation on archaeological research in Abusir (Egypt)
- Research on non-destructive and environmental archaeology (in cooperation with FSc)
- Research of the society of early modern times, the history of modern Czech literature and contemporary culture
- Research on the history and philosophy of arts and cultural studies
- Research group for the studies of post-mediaeval scholasticism, research in the Aristotelian and scholastic traditions
- Philosophy of technology and applied ethics (e.g., philosophy of autonomous vehicles and philosophy of epidemics)
- Psycho-spiritual needs and leisure of the elderly
- Virtual Reality in Keeping the Elderly Active (VIREAS)

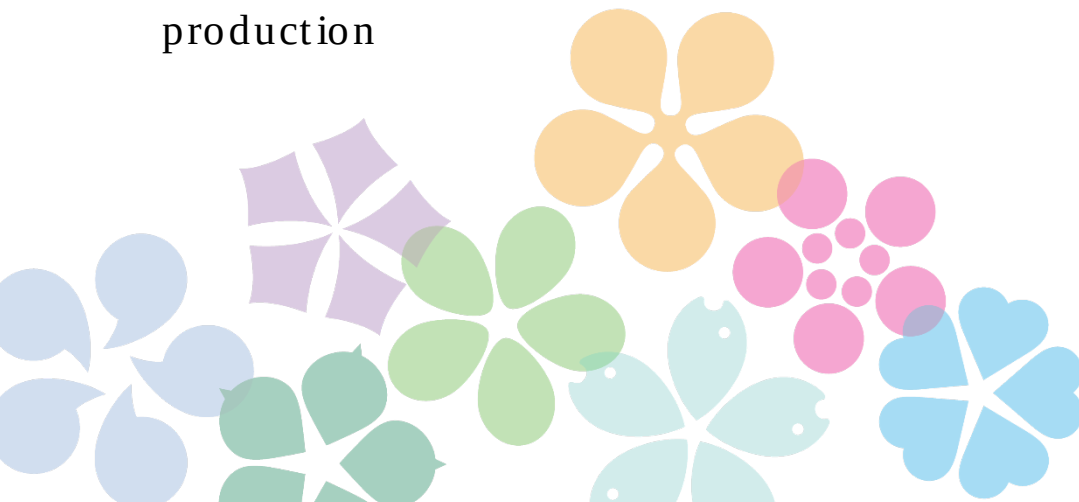

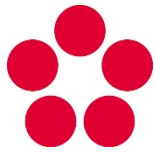

- Research on circular economy („green economy and bioeconomy“)
- Mathematical-statistic modelling and optimisation in practice
- Research of modern information systems from the security and communication point of view
- Consumer behaviour in the area of consumption of products and services
- Research on the relationship between language and personality (reflection of personality traits in the use of grammatical categories of language)
- Breathing techniques and the possibility of influencing the breathing stereotype
- Computational thinking, didactics of informatics – use of information technology in instruction
- Virtual Reality education and training solutions for medicine sector

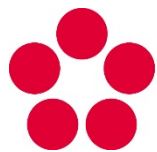

- Position of nurses in the nursing process and their role in disease prevention issues
- Cultural competences of nurses in clinical and community nursing
- Surrogacy and various aspects and risks of assisted reproduction
- Culturally competent care as a part of modern healthcare
- Use of modern computational methods in industry and agriculture
- Research focused on the quality, evaluation, and processing of agricultural products
- Agricultural biotechnology and the application of molecular biology methods in plant breeding
- Joint research and development of key technologies for efficient intelligent fine production

- USB perceives its role in the field of science and education and contributes to the fulfillment of the goals of sustainable development.

USB Technology Transfer Office

- founded in 2012
- links science and research with the commercial sector
- active support in establishing spin-off and start-up companies

BioCanim a.s. – a spin-off company of the University, pharmaceutical sector

South Bohemian University
and Academy Technology
Transfer Centre

Partnerships and cooperation with:

ASTP PROTON - Europe's premier association of Knowledge Transfer professionals

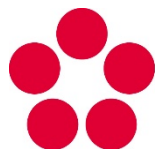

European Patent Office - Patent information centres (PATLIB)

Transfera.cz - national platform promoting and developing activities in the field of technology and knowledge transfer
