

MULTIMODAL TRANSPORT

ZLC-RAILGRUP-tmZ

Friday, April 27

[REGISTER HERE](#)

C/Bari 55, Edificio Náyade 5 (PLAZA), 50197 Zaragoza

AGENDA

The need to progress in the environmental sustainability of the territories and being the European year of multimodality gives us a particular scenario to combine elements such as infrastructure, rolling stock, and digitalisation and the needs of the final customer, the shipper, from an approach in logistics key, multimodal, multiproduct and multiclient.

Projects as Smart Rail or CLUSTERS 2.0 represent key development enablers to a multimodal approach.

Market Place Platforms, value chain clustering and the development of TRAILS type projects to enhance trans-border freight transport in a one-stop shop mode to identify multimodal permanent Solutions to boost sustainable transport of goods and thus contributing to a seamless network of decarbonized from fossil fuel territories.

09:00h

Welcome, Susana Val, ZLC's Director, and Ignasi Gómez-Bellinchón, Railgrup Manager

09:05h

Digitalization, multimodal transport and railway systems. Milos Milenkovic, ZLC Research Fellow
